Barbara

The message is appropriate.

Line to Extreme support is <https://www.extremenetworks.com/support/>.

I don't know how Avaya is managing POD customers- recommend you check with Bob Fizzard or someone from his team.

Mike

Thank you!

On the support@avaya.com download pages for all the networking products, is the following message appropriate?

Avaya is no longer distributing this product software, effective May 31, 2018. Please contact Extreme Networks.

Is there a link to Extreme tech support or download center that we should add?

One other thought, for those Avaya managed services customers and PODFX customers where Avaya is servicing the networking products, do those end customers still go to Extreme for any downloads needed, or does Avaya provide the downloads as part of the services / OEM agreements/

Thanks,
Barb

Hi Dan

The edntools account in Bangalore is managed by us.

The tar files were created recently by Barbara and contain the GA release files that were posted to the Avaya Support download Website. The GA release files belong to Data Networking (DN) and have to be moved to Extreme. Sandesh Singh is managing the transfer of the data from Avaya to Extreme.

I requested Barbara to copy the files to /opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files.

Back in Jan-Feb 2017, as ongoing work related to the SNMP Research litigation and actions, we removed/deleted legacy software images from our Support site and Akamai server.

I am copying Michael F/Sandesh/Barbara on this email.

Thanks & Regards,

Sunil Ramu

Sunil,

Do you know who manages the edntools account in Bangalore. There are some newly created .tar files that have been flagged for containing the SNMP Research copyright:

```
/opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files/SAFE/NWDInvest_SAFE_Set1.tar
/opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files/SAFE/NWDInvest_SAFE_Set3a.tar
/opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files/SAFE/NWDInvest_SAFE_Set4.tar
/opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files/SAFE/NWDInvest_SAFE_Set5b.tar
/opt/soe/lb/ntec_es_4/sandbox1/edntools/dn_ftp_files/supportCSS_nortel.tar
```

We'll need to resolve this before data for /opt/soe/lb/ntec_es_4/sandbox1 can start to be transferred. Thanks!

Dan
